Talent wins games,
but Teamwork and Intelligence
win Championship

"The Best Way to predict
your future is to create it..."

CHAIRMAN'S MESSAGE

It is indeed a pleasure to write about the dreams which keep getting fulfilled by the dedicated team I have been blessed with. The journey of establishing educational institutions began in 2001. My passion towards the same inspires me to enhance the functioning of the existing institutions and simultaneously set up new ones. We forayed from Hyderabad and we are now present at Nagpur, Roorkee, Dehradun and other places. Institutions which have created professionals and consistently setting new milestones. I always feel happy to speak about my institutions and I will do it here as well; At Hyderabad - Guru Nanak Engineering College, Guru Nanak Institute of Technology, Guru Nanak Institute of PG Studies(MBA), Guru Nanak Institute of PG Studies (MCA), Guru Nanak Institute of Pharmacy, Panineeya Hospital, Institute of Dental Sciences & Research Centre, Guru Nanak Business School, Guru Nanak Business School of Management, and Guru Nanak Engineering & Technology. Nagpur :- Guru Nanak Institute of Engineering & Technology, Guru Nanak Institute of Engineering & Management and now Edify School. Roorkee :- Hermes College of Engineering & Management and Hermes Business School. Today the group is proud to include within its field areas of education that start from the pre-primary up to professional graduation. It has been our consistent emphasis on quality of education and inculcating the passion for excellence that has produced results of this outstanding nature.

The same has also been the foundation of our reputation of being an institute that delivers results. It has been my belief that all children have the ability to achieve greatness and become the person they dream of becoming. "I wish I could be.... when I grow up," means that as an institution we have the task of guiding the student and helping him or her to develop the self-confidence they need to believe that they can and will do anything they set out to achieve. With this in mind Edify School Nagpur was conceived and furthered. I proudly speak about my foray into school education for I believe school education needs a changed approach in the ever-changing world scenario. It is all the more proud moment for me to write about how my team has let each student at Edify grow in a natural fashion and master the abilities he or she is gifted with. Parents have been a source of strength for us and their continued support has led the school plan big. My advice to the parents as regards to "shower your love and concern" but also help your child grow with the feeling of positive attitude towards life and everyone he or she meets. Trust me this one teaching reinforced at home also will change the personality of your child. Give your child your time and show concern in their learning and growing process. All this surely will make life more meaningful for them". Edify School Nagpur has borne results and I see the change every time I visit the school campus and witness the contented faces of children conducting themselves with improved confidence. Do let us know how you feel about the school and keep us informed. It will help us serve you better.

MANAGING DIRECTOR'S MESSAGE

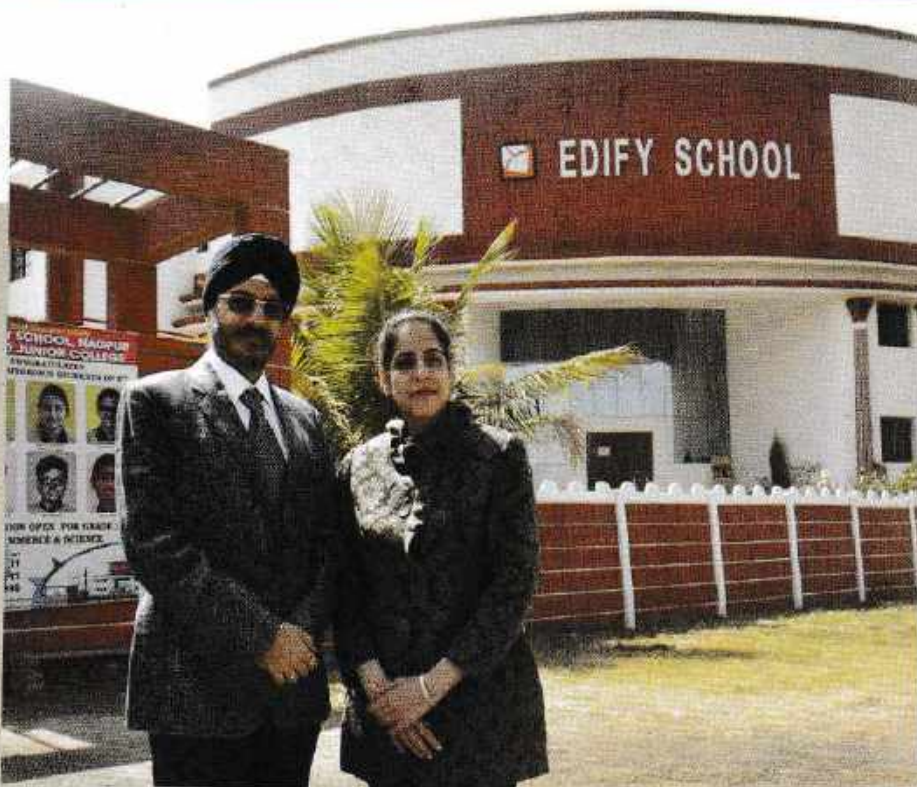

It is said, "That action is best which procures the greatest happiness for the greatest numbers." It is also said, "Ability and necessity dwell near each other." Honestly speaking these were the thoughts that went into the opening of Edify School Nagpur. Even as students, we had nurtured a dream to do everything that we could in order to retain the glorious history of education of our motherland. When our appointed hour with destiny finally arrived we did not take long and agreed to start Edify School at Nagpur – the Orange city of the country. And that's how this "Journey of thousand leagues" has begun for us. Every minute detail in creating infrastructure has been taken care of, be it the flights of stairs which has been kept at less than nine inches, rubber beading on the edges of the door, well-lighted rooms, temperature controlled class rooms, state-of-the-art basketball court, skating rink, laptop computer lab, well-stacked library, eleven thousand square feet of covered play area, music and dance room, art and craft room, and we may go on, but at Edify these will never stop. Innovation and improvement will be an ongoing process. Students will never ever feel the crunch of anything just because Nagpur is not a metro. Now, as we begin the next session, there is immense satisfaction of having started something which has helped us give back to the society in the form of ever evolving education to our young ones. And believe us, dear parents, there is no parallel to the joy thus derived.

The Staff which we have handpicked has been our pillar of strength and we are proud of them. They have delivered goods which are appreciated by our existing parents. This for sure gives us tremendous joy and confidence.

Edify School Nagpur moulds the students in such a way that they become global citizens with magnificent character. Our students are able to compete today's fast changing world with the help of their knowledge. The curriculum helps a teacher in creating future-ready citizens. Life today is moving at a break-neck speed with technology. Within next decade, gadgets that we are so gaga about now will be easily handled by our students. Not only equipments and gadgets, even cultures, philosophies, social behavior will transform the Edify kids. They become problem solvers, confident, principled and international minded individuals. The present generation of kids is a curious lot. Thus our students can relate to the classroom knowledge to real life situations.

We are assured and so shall you all be that school is well poised for even bigger leaps and so are the students and we would like you to be a part of it.

Looking forward to your continued Patronage

Regards,

Inderpreet Singh Tuli
Managing Director,
Administration.

Mandeep Kaur Tuli
Managing Director,
Academics.

PRINCIPAL'S MESSAGE

**Its an honour for me to lead Edify School Nagpur
and to be a founder member of team Edify**

We at Edify emphasize on the Holistic development of the child by nurturing the young minds exposing them with the extra-curricular activities as well as academic development of the child.

We prepare the students for Life, work and citizenship. The school brings about edification of the pupil from all the dimensions like social, moral, spiritual, emotional and physical including the economical aspect of life.

We believe that each child is unique and the true purpose of education is to bring out the best out of every child with the strong efforts of skillful and dedicated team of facilitators.

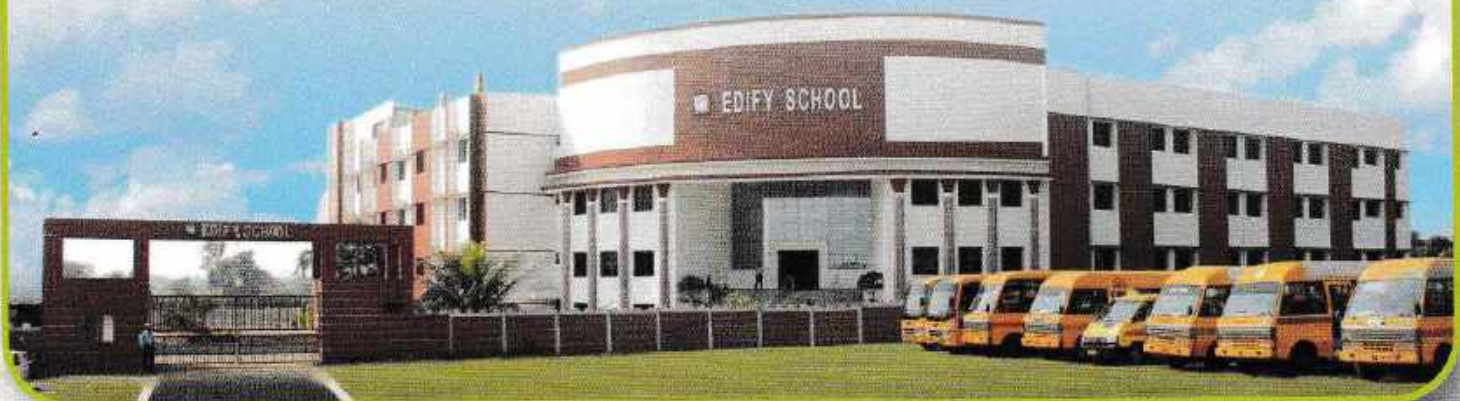

We create an environment where a child nurtures fearlessly competing with his fellow students, facing the challenges and developing strong interpersonal skill which would make him a successful human being in true sense.

Edify campus focuses on nurturing a good rapport of parent- teacher as well as teacher-student which enables us to mould the child in desirable manner.

Edify aims to develop leaders of tomorrow. We constantly ensure to create the opportunity for all to succeed through a holistic curriculum with interactive and inter disciplinary approach for our children to be a global citizens, who can contribute their fair share to the world immensely.

With all good wishes

Mrs. Smita Dev
M.Sc. ,B.Ed., PGDSLM

ABOUT US

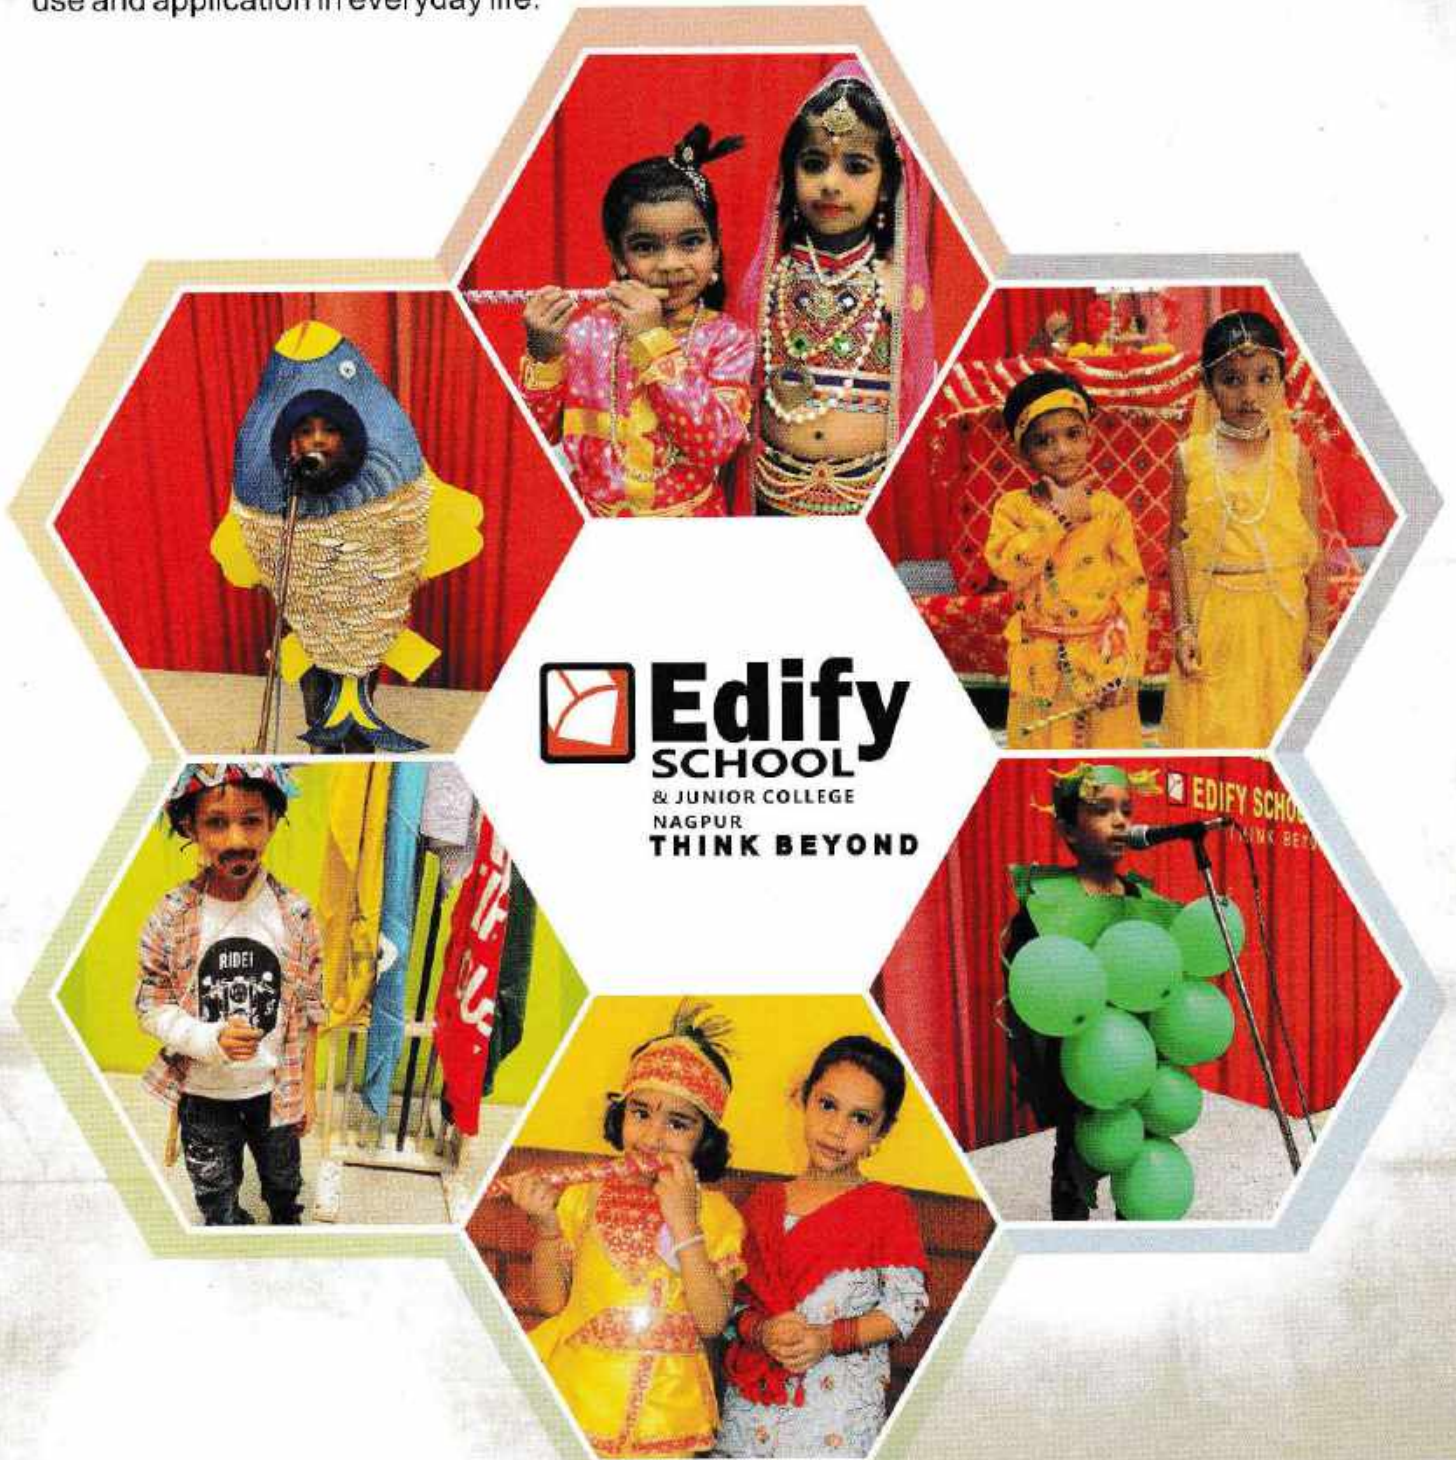

"Singh Education Society", a pioneer over 2 decades in the Education sector has successfully made its name in imparting education at Nagpur, Hyderabad and Roorkee. The society through education caters to children from the kindergarten age to making them professionals into Engineering, Pharmacy, IT, Medical and Business Management.

CURRICULUM

Edify School Nagpur is a futuristic school as it follows 3C Education, an 'Inquiry based learning' through the '3C approach' which develops 'Character, Competence and Content' in a child and ensures holistic education to the child. The school environment and curriculum reflects the natural needs of the young inquisitive mind and the program is designed by infusing the best of international learning practices mapped with the national curriculum providing the best learning environment to each individual learning style of the child. The school provides CBSE Curriculum in an International setup.

At Edify, all students are taught interactively in a transdisciplinary approach and conducive environment which helps to build interest in the subject as the student begins to see its practical use and application in everyday life.

**We are not A team because we work together,
We are A team because we respect, Trust and care for each other**

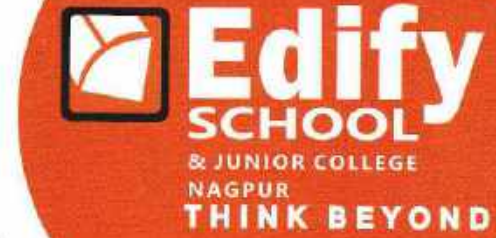

Breaking from the conventional methods of teaching, we believe in letting the child develop a sense of responsibility through personal experience. This helps them to learn to analyze things enhancing their thinking skills. The more they explore and experience, the better their learning skills are developed contributing towards an overall development of the child. At Edify School Nagpur, students participate in many inter Edify events like - Edisports, Edifest, Student Exchange Program and Online Competitions. Also they participate in inter house competitions and educational tours within the city, to different states and even International places.

EDIFY FACILITATORS

Teachers at Edify are called Facilitators who facilitate in all possible ways to nurture the skills of children and not just teach. Hence our school has brought together an adroit set of facilitators from different parts of the country who know what is required to polish your jewels. They come with high quality experience. To keep up with the high demands of industry knowledge and parent expectations, our facilitators go through vigorous trainings each year to be able to prepare every student of Edify.

"A FORCE TO RECKON WITH".

FACILITATORS TRAINING

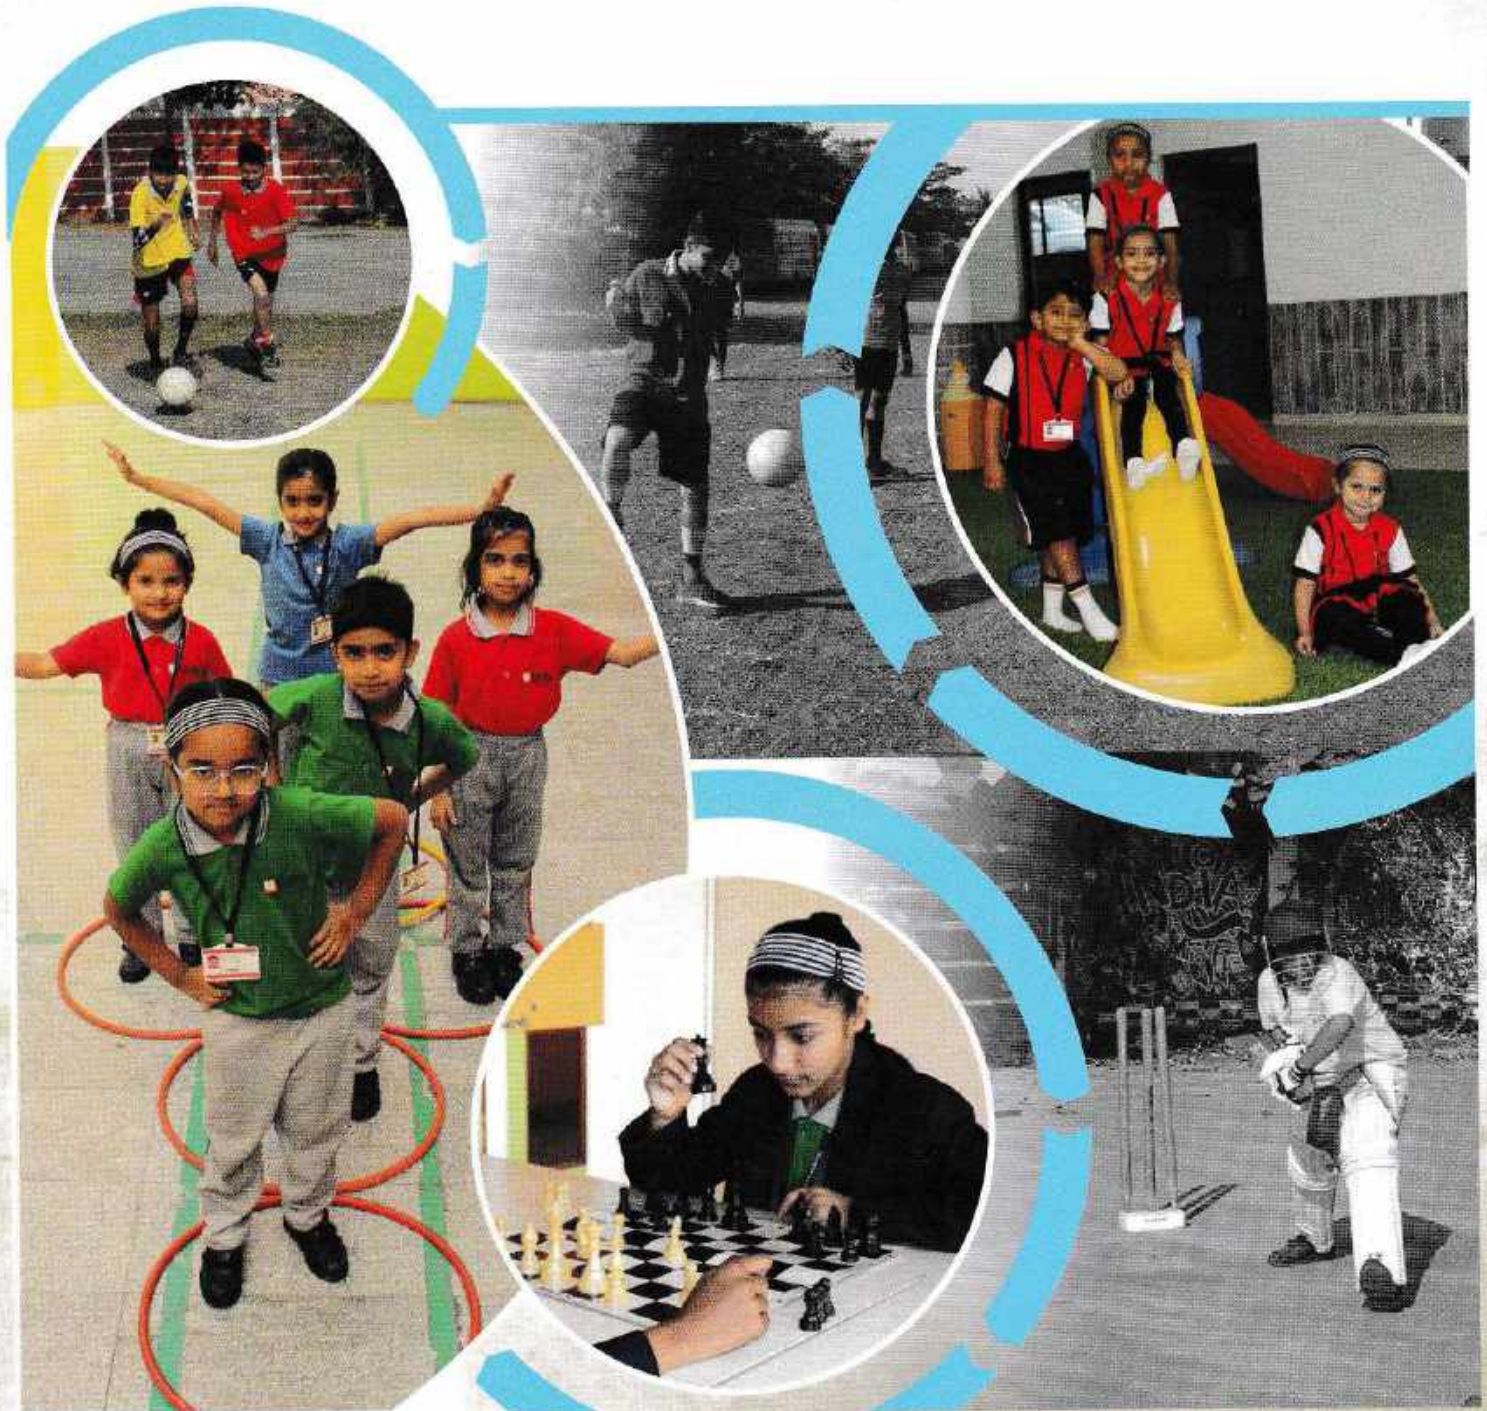

Sports For Every Child

"All Work and No Play makes Jack a dull boy."

We believe that Sports play a key role in ensuring the comprehensive development of a child. Multiple options are made available to every child to learn the basics of each sport, mastering one at the same time.

Sports are a regular activity. Skating, Martial Arts, Swimming, 200 M Athletic Track, Football, Basketball, Volleyball, Badminton, Table Tennis, Gymnasium, Karate, Chess, Carrom, Yoga, Kho Kho etc. are some of the Sports facilities available at the school. The school has state level coaches who prepare Edify Students for State, National and International championships.

THINK BEYOND

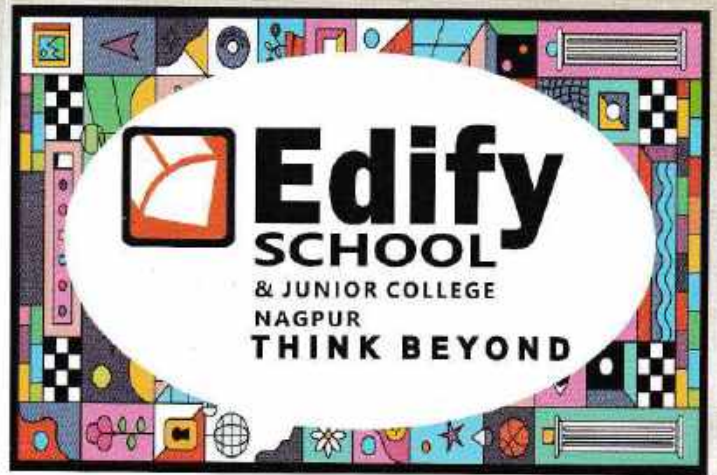

FINE ARTS

Fine arts is a very important component of Edify Curriculum as it ignites the creativity within a child and hence allows the child to be creative, sensitive yet assertive and passionate. Edify School Nagpur train Students in both Visual Art - Art & Craft and Performing Arts - Guitar, Piano & Keyboard, Drums & Congo, Western Dance, Indian Classical Dance, Indian Classical Instruments, Vocal Music etc. Each child chooses one Fine Arts option and polishes his/her skill in the same throughout the year. These extracurricular activities enhance their lives and builds pride and confidence in them. Well, it may also build their Career !!!

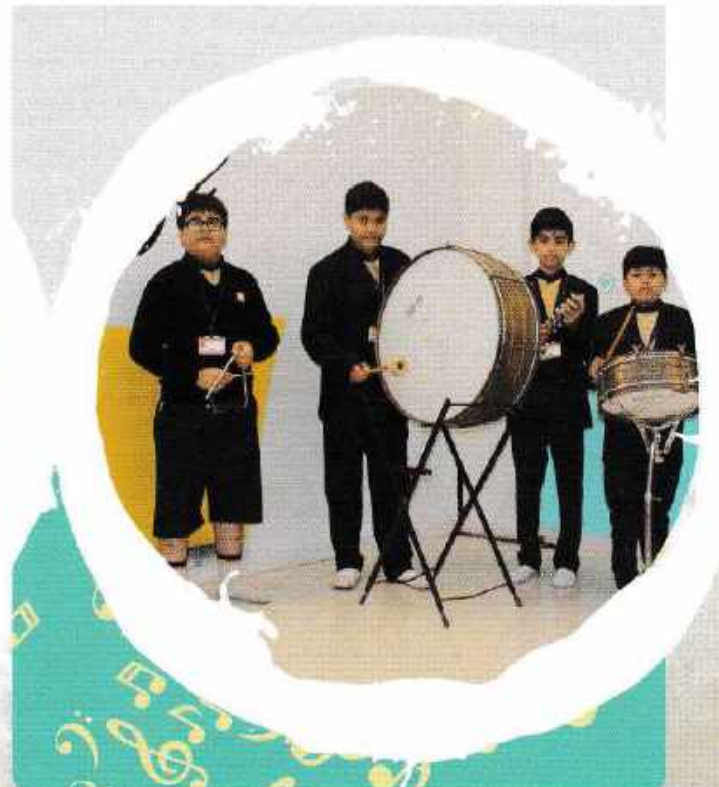

HAPPINESS IS A STATE OF ART

GLOBAL CITIZENS

To be responsible global citizens, students need to understand the challenges facing the world from the very early stages. Hence discipline and training from the young age makes confident, organized, positive thinking leaders of tomorrow's world. Breaking the limits of geographical domain, we not only encourage our students to interact with students of other countries but also have teachers from various parts of the world to teach Edify students foreign languages, fine arts and sports. A cultural exchange contributes to awareness on global issues and gives them the much needed exposure.

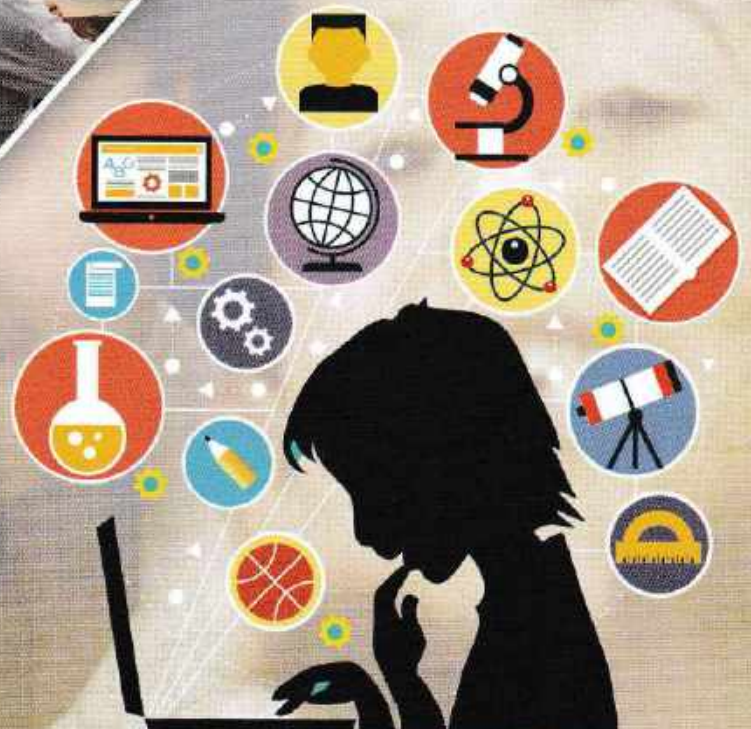

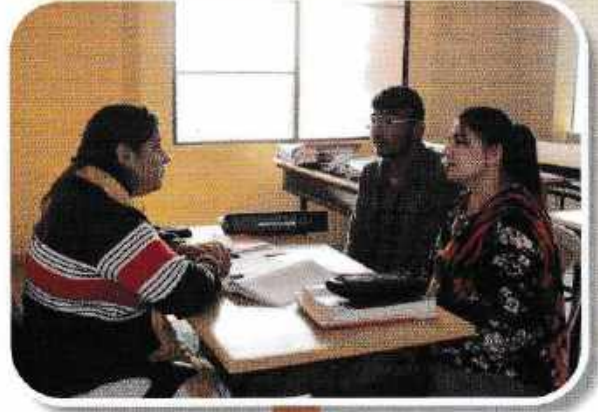

Edify SCHOOL & JUNIOR COLLEGE NAGPUR THINK BEYOND

TECHNOLOGY

Today's children have more knowledge about gadgets than they have of toys. Hence we at Edify School Nagpur teach kids in the technological way. Starting from smart classrooms with smart boards and projector, the entire campus is wi-fi enabled to promote research based daily studies. The school also provides well equipped IT labs with a student laptop ratio of 1:1, robotics, aeromodelling, multimedia content for all grade curriculum and well equipped science and mathematics laboratories.

PARENTS AS PARTNERS

Parents are considered as significant partners in the holistic development of our children. Parents visit the school at regular intervals on informal occasions like - Coffee Mornings, Parent Workshops, Learner Synopsis Day, Resource Parent Day, etc. Parents at Edify School, Nagpur also teach the students on subjects they specialize in.

Introducing Innovations Teaching Pedagogy

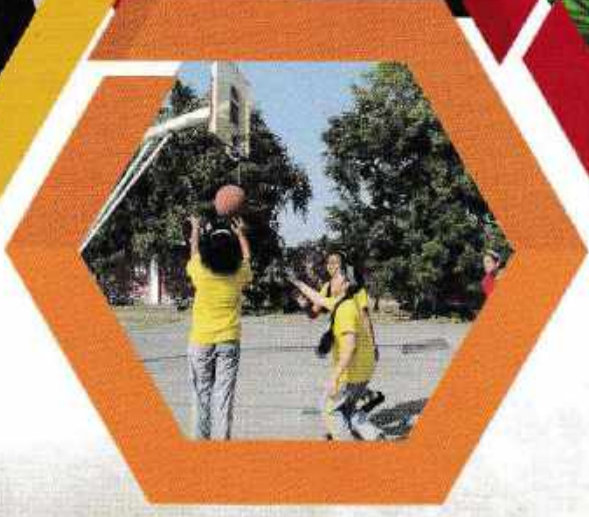

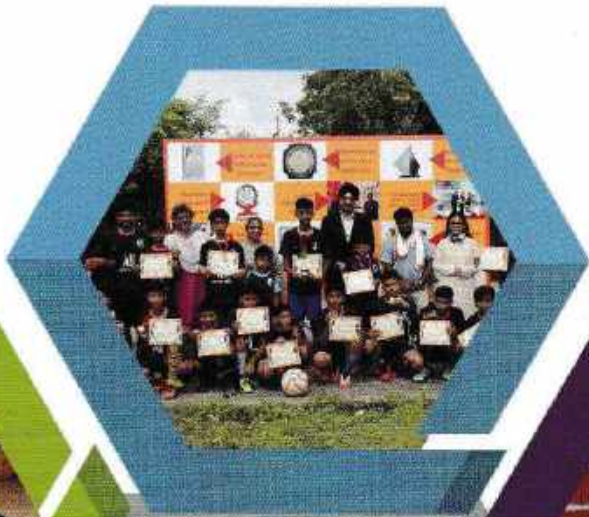

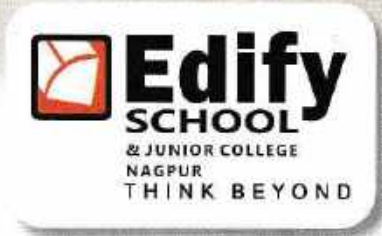

Knowledge is Power

No one can be as lucky as a person who gets an opportunity to pursue his/her hobby as a profession. We at Edify School, Nagpur aim to let your child hone their latent talents through a meticulously planned hobby curriculum. For, who knows we will be proudly facilitating your child for achieving milestones after milestones in the times to come.

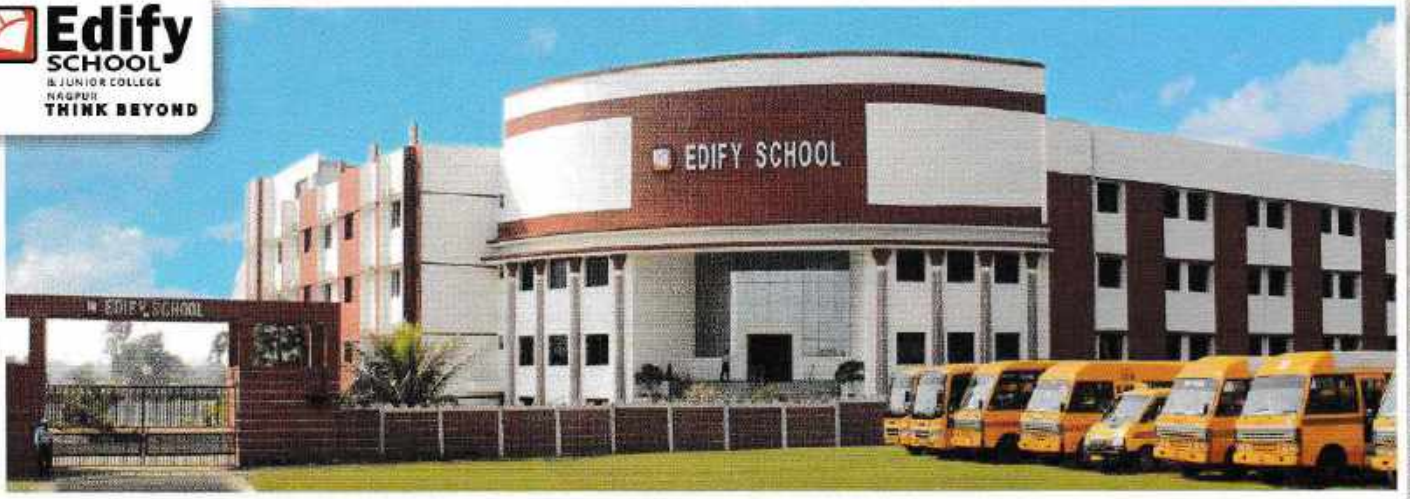

Let you and us be witness to shaping your kid's life, with a vision to excel. Come let us start this journey . . . A journey that will be worth every effort that your child makes to carve his life, with us being the perfect tools for it . . .

To make a child much more than the possessor of a great mind, we ensure that your child has the physical fitness to carry the intellect. We have both outdoor and indoor games like table tennis, carrom, chess, etc. to make that happen.
